Dysentery, Relax and Worms! POST OFFICE HARTLAND LIV. Co., MICH., NOV. 16, 1855. Dn. Aven: Your Pills are the perfect on of Medicine.
To y have done my wife more good than I can tell you. She had been ick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pils, which soon cured her, by expelling large quantities of worn (dead) from her body. They afterwards cared her and our two colldren of bloods dyentery. One of our neighbors had it bad, and my wife cured him with two doses of your Phis, while others around no paid from five to twenty dolors doctors' bills, and lost much time, without being cure I entirely even then Such a medicine as yours, which is actually good and honest, will be prized here. CEMENT ROOFING. THE undersigned are prepared to introduce into use in Tempesse W. E. CHILDS & CO.'S PATENT ELAS-TIC FIRE AND WATER-PROOF CEMENT ROOFING, and ask the attention of Architects, Builders, Rallroad papies, and the public to examine its superiority over other

ARCHITECTS AND BUILDERS should not fall to examine this Rooting, as it is better and chesper than any thing in use. The material forms a hard and smooth surface that will resist the action of the atmosphere in every climate. It is impervious to water, elastic, and flexible. It contracts and expands with the changes of the a mos phere, and will neither evaporate, crack nor rot; and, as to its durability, there is no question.

It is practically imperishable, and will perfectfully resist any ordinary external exposure to fire, as is abundantly proved, and we will warrant it water-proof. We will engage to put our Roofing on over ordinary good sheathing, old shingles, tar and gravel, tin, sinc, copper, or iron roofs -it making no difference how steep or flat they may be-for seven dollars per one hundred square feet; it being far cheaper than any Roof of the old style, and we are sure it It will also be found to be the best thing ever invented to nover or mend old leaky tin, tar and gravel roofs, or around chimneys, scuttles, dormar windows, and gutters, where the

tin is rout of through. This Cement can be put on to last as long as stone, and form a perfect addresson to any objest to which it is applied. The Roofs can be painted over (and warranted not to leak) at two d liurs and fifty cents per hundred square feet, which is cheaper and much bettheng for covering large Roofs where they are exposed to fir —such an Steam Mills, Saw Mills, Factories, Ruitroad Cars, Bridges, Depots, Station Bouses, Steamtoat Decks, and, in fact, every kind of Roof where there is an external exposure from fire. As the Roof is perfect, without a joint in it, it presents no chance for fire to communicate, and any in it, it presents no chance for his to communicate, and any light substance will burn out without igniting.

The Insurance Offices at Circinnati, and other places where Childs & Co.'s Cement has been us d, insure solidings with Roofs covered with this Cement, at the same

Take as for those covered with Iron, Copper or Tin.

The Comeut wit be furnished to those at a distance with directions for using.

Undersease to the undersigned, through the Postoffice, will be promptly attended to

## Chickering and Sons' Piano Fortes.

AT THE EIGHTH EXHIBITION OF THE MASSACHUSETTSCHARITABLE MECHANIC ASSOCIATION in 1856,

LEVI P. HOMER,

WM. REED,

Report of the Judges, J.C. D PARKET. HENRY R. OLIVER, OTTO DRESEL. GEO. M. WARREN, The following instruments were offered for examination, in competition for awards :--

Forty-eight Piano Fortes, subdivided as follows: Nineteen Grands. Three Semi Grands, Two Parlor Grands. Thirty-three squares,

In the department of Plano Fortes, the committee, uniting into one class, as is obviously correct, the Grands, Semi-trands and Parior Grands, recommend the following awards: Chickering & Sons, for their Grands, Semi-Grands, and Parlor Grands, for most decided and meritorious improvements,

Chickering & Sons, for the two best Square Piano Fortes, of Seven Octavo each, the first Silver Medal. The committee, in coming to a decision upon the merits of the several instruments of which they have just determined neir award, were of entire unanimity. They did not hesitate for a moment in deciding that the Grand Plane Fortes from the justry celebrated how e of the Messrs, Chickering & Sons, were not only a torether manifestly superior to all competitors at the present Exhibition, but were an equally manifest, and greatly advanced improvement over the well-commended product no of the same establishment off red at anterior axhitions. And the committee not only feel it to be a pleasure, but an obvious duly, to congratula e the pleasnt helds of this long established house, that they have so well sustained its high repute. The memory of the good name, and of the good dee is, and of the great skill of its ound r, shall ong be cheri hed; and it is a matter of equal satisfaction and price that the garment of praise he has so founder, shall long be cheri hed; and it is a marter of equal satisfaction, and price that the garment of praise he has so fairly won and word, has fallen upon shoulders worth to receive and able to honor it.

The Semi-first do of Thickering & Sons, and a Parlor-firsted by the same firm, were superhinstrument; and this last had the several varieties of Grands, Semi-Grands, and Parlor-firsted been kept distinct in class, would have been entitled, a highest award, both for it own in rinsic merit, and a larger and meritorious invention. Fut all these were unitied into one class, and the award was made accordingly. The Parlor-Grand, first example in the home of Chickering & rons, and made its appearance at the exhibition of 18.8, and the committee of that year awarded to it a Gold Meds; but ina much as the take lamented head of the firm was a member of the then Government of the rockety, the award cool due to countried ction could this award be now confirmed. That the judgment of the committee may be distinctly understood, they now repeat their awards on the class of infrom the plant ent of the committee may be several varieties into one class, and they award to Colcaering & Sons the first premium to cover the three varieties offered by them --Gold Medal.

In the class of Square Pisno Fortes, the awards of the committee were made with equal unanimity. The instruments of thickering & Sons are at the head. It is not necessary to discuss the merits of the other Square Piano Fortes in detail. Those to which awards have been sesigned are plac d in the order of their merit, as adjudged by the committee, and those of which special mention is not made are passed by as not coming up to a just standard of excellence.

Twenty-Eighth Annual Fair of the American Institute, New York, 1856. H. A. WOLLENHAUPT, W. H. SAGE, JAMES HARRISON, L. M. GOTTSCHALK, JUDGES,

CHICKERING & Sons, Boston, Mass. For the best Grand Piano-Fortes, Gold Madal. At Pittsburg, the present searon, Mesars, Chickering & Sons, were awarded the highest premium, a Sive- Medal.
